Karate & Advanced Karate with KP Kids (2-5) \$250	VEX Virtual Robotics & Game Coding with Makerstate (3-5) \$295	Writopia Lab with Writopia Lab (3-5) See Description	My First Code with ScratchJr & Kodu NEW! with Makerstate (K-1) \$285	Photography with Junior Lab (K-2) \$245
	Young Architects with Kids In Design (2-5) \$295		Paul Taylor Dance with The Paul Taylor Dance Company NEW DAY! (K-2) \$265	

Online Virtual Programs

***Program Hours: 4:30pm - 5:30pm. See Pg. 10**

Monday	Tuesday	Wednesday	Thursday	Friday
Python Interactive with Launch (3-5) \$280	Graphic + Digital Design with Launch NEW! (3-5) \$280	App Inventor with Launch (3-5) \$280	Web Design: HTML, CSS, JavaScript with Launch (3-5) \$270	Environmental Science with Launch NEW! (2-5) \$280
Mad Science Presents: Junior Explorers (K-2) \$280			Writopia - Online with Writopia Lab (2-5) \$285	

Important Information Below:

- ****Subject to Change****
- ****Receipts will display course name as listed above****
- There is a \$35 registration fee per student, per semester.
- We offer a payment plan in two installments: First payment due at the time of registration and second installment on January 14th, 2022.
- Winter Semester: January 10th, 2022 - March 15th, 2022
- All on-site classes will be held in-person at Nest+m.
- All online classes will be held as live sessions via Zoom or Google Classroom.
- Please note all online classes will be held between 4:30pm - 5:30pm on their scheduled day, unless stated otherwise.
- Supervised care is available before and after specialized /regularly schedule classes (after 5pm care available at an additional cost)

3D Design & Minecraft

Storytelling

With Makerstate

Grades: K-2nd| Day: Tuesday| Date: January 11th - March 15th| Price: \$295|

Budding designers will combine 3D art, Minecraft block-building, and creative writing to craft heroes, stories, and worlds in Minecraft and Tinkercad. As we build, collaborate, and innovate, we'll grow skills in 3D design, art, writing, and presentation. Dreaming it? Build it!

Skills Development: 3D Design, Minecraft Engineering, Story Crafting, Hands-On Engineering, Animation, Creative Arts and Game Design.

3D Engineering with Lego, Tinkercad & Minecraft **NEW!**

With Makerstate

Grades: 3rd-5th| Day: Friday| Date: January 14th - March 11th| Price: \$295|

Let's learn the art of 3D design and build toys, games, cars, rockets, robots, castles, and circuits in Tinkercad. With this 3D design tool you can create anything you can imagine. We'll start by modelling with clay, foam and paper prototypes just like architects and engineers, and then we'll create our 3D shapes, learning spatial awareness, geometry, and math computation along the way.

Skills Development: 3D Design & Printing, Creative Arts, Hands-On Engineering, LEGO Engineering.

After3: Arts & Crafts **NEW!**

with Celeste

Grades: K-2nd| Day: Wednesday| Date: January 12th - March 9th| Price: \$215|

Hello, my name is Celeste Otero.

In this class students will learn about visual arts and crafts. Students will experiment and learn about different materials and mediums such as watercolor, pastels, sketching, painting, crafting, etc.

This class will teach students how to inventively create things like painting on canvas without a paintbrush or creating 3D flowers using paper. Students will have the opportunity to expand their creative thinking skills and visual concepts on art projects.

Animation Arts & Coding **NEW!**

With Makerstate

Grades: K-1st| Day: Monday| Date: January 10th - March 14th| Price: \$295|

Learn how to create characters and costumes in pixel art from your favorite games and movies like Toca, Animal Crossing, Floppy Birds, Mario Bros, Toy Story, Frozen, LEGO Movie and more! Imagine and create game sprites, moving characters, and animated gifs, and even import them into your own coded games. We're getting super creative in Piskel and ScratchJr for this fun intro to animation art and coding.

Skills Development: Animation, Creative Arts, Game Design, 3D Design, Story Crafting. PC/Mac devices required.

Chess - Beginning/Intermediate

With Chess Focus

Grades: K-5th| Day: Monday or Tuesday| Price: \$295 (Monday)| Price: \$295 (Tuesday)

This class is open to beginner and intermediate chess players. Students will be grouped based on their level. Beginner students will learn the basics in a fun and friendly environment. Students will learn how all the pieces move and how to checkmate. They will be introduced to opening principles and various phases of play. Students will also be taught chess notation and the use of the clock.

Intermediate players will gain a deeper understanding of openings, and get an introduction to middle and end games. Additionally, they will focus on tactics and puzzle solving, and play tournament style games.

Chess Team - Advanced/Intermediate Tournament Players

With Tamar Chanadiri

Grades: K-5th| Day: Thursday| Date: January 13th - March 10th| Price: \$285|

This class is geared for both advanced and intermediate tournament players. The class is suitable for groups USCF rated (400 - 800+).

The focus of this class will be on advanced tactics and strategy. Students will gain a deeper understanding of middle and end games. Students will also be introduced to the history of chess, and famous games from chess world champions will be analyzed. The class will include tournament style play with game analyses. Regular homework can be expected.

Please Note: NEST+m will have a competitive team on Wednesdays not administered by After3. Please contact the school directly for details.

Coding Club with Minecraft

With Makerstate

Grades: 3-5th| Day: Friday| Date: January 14th - March 11th| Price: \$295|

Budding programmers will create new blocks, interactive maps, puzzles, and characters in this fun-first introduction to computer programming through Minecraft game design. Projects include building mines and farms from our own blueprint designs, creating giant pixel art through algorithms, and 3D structures such as portals, roller coasters, and secret staircases.

We'll build skills in collaboration, communication, problem-solving, and digital citizenship. Coding and game design together, forged from our imagination in Minecraft.

Skills Development: Coding, Minecraft Engineering, Hands-On Engineering, Animation, Creative Arts, Story Crafting, Game Design.

Creative Arts & Coding **NEW!**

With Makerstate

Grades: K-1st| Wednesday| Date: January 12th - March 9th| Price: \$295|

Learn how to create characters and costumes in pixel art from your favorite games and movies like Toca, Mario Bros. Toy Story, Frozen and LEGO Movie! Imagine and create game sprites, moving characters, and animated gifs, and even import them into your own coded games. This introduction to animation arts and computer programming is just for you.

Skills Development: Animation, Creative Arts, Game Design, 3D Design, Story Crafting.

Cub Scouts

Grades: 1st-5th| Day: Friday| Price: \$400|

Winter: Date: January 14th - March 11th|

Spring: Date: March 25th - June 17th|

Please Note: This course will include a one time registration for both Winter and Spring semesters. Please do not register without prior approval from the Cub Scouts Directors.

Scouting offers fun and challenging activities that promote character development and physical fitness. Cub Scouts learn that even when fun isn't easy, it's always an adventure. In Scouting, everything has a purpose and it shows kids that doing their best is the most fun of all.

Family involvement is an essential part of the program, and parents are encouraged to play an active role in making the most of the short time they have to impact the lives of their children.

Please Note: This course is now available to new students. The course fee includes membership for both one student and one adult. If you are interested, please follow this [Link](#) to provide us with some basic information about you and your Scout. Please email after3nyc@gmail.com with any questions.

After3 Lower School Winter 2022 Courses

Game Animation & Coding **NEW!**

With Makerstate

Grades: 2nd-5th| Day:Monday| Date: January 10th - March 14th| Price: \$295|

Learn how to create characters and costumes in pixel art from your favorite games and movies like Toca, Animal Crossing, Floppy Birds, Mario Bros, Toy Story, Frozen, LEGO Movie and more! Imagine and create game sprites, moving characters, and animated gifs, and even import them into your own coded games. We're getting super creative in Piskel and Scratch for this fun intro to animation art and coding.

Skills Development: Animation, Creative Arts, Game Design, 3D Design, Story Crafting.

Homework Club Jr. & Homework Club Sr.

Grades: K-2 & 3-5

Day(s): Monday - Wednesday \$195 Per Day

Day(s): Thursday \$185

This class is for kids who would like to spend their after school time doing assignments and or homework. We have qualified instructors to support children doing their homework. For children who don't have homework, there will be games and activities available to keep them interested. Kids are separated into two groups: Homework Club Jr. which is K-2 and Homework Club Sr. which is 3-5.

Karate & Advance Karate

With Sensei Amelia Sheftall KP for Kids

Grades: 2nd-5th| Day: Monday| Date: January 10th - March 14th| Price: \$250|

Please note there are limited available spots. Uniform Fee For New Students: \$35

The After3 after school karate program incorporates warming up, stretching, review of fundamental karate techniques, formal kata, meditation and Japanese terminology in each class. There are also fun games that increase stamina and overall fitness.

Each semester there will be a promotion where students who are prepared and who have accumulated enough class hours will be asked to attend a special event to receive their new belt or advanced stripe for that belt level. These promotions are wonderful experiences for everyone and we look forward to your participation.

Karate - Beginners

With Sensei Amelia Sheftall KP for Kids

Grades: K-2nd| Day: Friday| Date: January 14th - March 11th| Price: \$280|

An introductory course into the art of Karate. Open to new students.

Uniform Fee For New Students: \$35

Mandarin Chinese Immersion

with Shuang Wen Academy Network (SWAN)

Grades: K-1st

Day(s): Tuesday & Thursday both days required.

Price: \$590

SWAN's Mandarin Chinese language ASP starts at the crucial early childhood education level and goes beyond reading and writing, offering cultural events, activities, and games to engage students in using the language every day. Unlike any other language immersion program, SWAN emphasizes curriculum, evaluation, and implementation. The curriculum we created for our students is based on high standards of Mandarin Chinese proficiency in listening, speaking, reading, and writing. We ensure the learning standards are met through: (1) outstanding and experienced teaching staff; (2) specific Mandarin Chinese language and culture learning activities; and (3) the use of technology and innovative techniques in Mandarin Chinese learning. These standards have helped set us apart to become the leading educator among Mandarin Chinese language programs in New York City.

A typical afternoon for SWAN students will include a variety of academic and cultural activities such as learning Chinese phonetics and characters, singing Chinese folk songs, engaging in hands-on activities through a Chinese holiday theme-based curriculum, and practicing oral drills. This is a program for students to discover and experience another world in a safe and supportive environment. As the leading Mandarin Chinese immersion program on the Lower East Side of Manhattan, SWAN has been the driving force behind dual language and dual culture education. Participants of all ethnic backgrounds not only receive Mandarin Chinese language instruction, but also learn about the values and beauty behind festivals like the Chinese Lunar New Year, Dragon Boat Festival and August Moon Festival.

Minecraft Engineering & 3D

Design **NEW!**

With Makerstate

Grades: 2nd-5th| Day: Thursday| Date: January 13th - March 10th| Price: \$285|

Budding designers will combine 3D art, Minecraft world-building, and creative writing to craft heroes, stories, and worlds in Minecraft and Tinkercad. As we build, collaborate, and innovate, we'll grow skills in 3D design, art, writing, and presentation. Dreaming it? Build it!

Skills Development: 3D Design, Minecraft Engineering Story Crafting, Hands-On Engineering, Animation, Creative Arts, Game Design.

My First Code with ScratchJr & Kodu **NEW!**

With Makerstate

Grades: K-1st| Day: Thursday| Date: January 13th - March 10th| Price: \$285|

Budding coders will create imaginative worlds full of mountains, rivers, forests, animals and bots in this fun-first introduction to coding, 3D design, and art. We'll program our own interactive stories and games in Kodu and/or ScratchJr. In the process, we'll learn to solve problems, design projects, and express ourselves creatively on the computer. Screen time can be creative, fun, learning time. Let's code!

Skills Development: Animation, Coding, Creative Arts, Game Design, 3D Design, Story Crafting.

After3 Lower School Winter 2022 Courses

Paul Taylor Dance **NEW DAY!**

With The Paul Taylor Dance Company

Grades: K-2nd| Day: Thursday| Date: January 13th - March 10th| Price: \$265|

As the educational component of the Paul Taylor Dance Company, The Taylor School exposes students to the joy and passion of Mr. Taylor's dances. Through creative games Young Artists are able to explore their innate love for movement in a safe and nurturing environment. They will learn basic dance exercises that build the early foundations of modern dance technique- the basis for Taylor's choreography- and express their own creative voices.

Classes may be divided up into two groups where each class is 45 minutes.

Photography

With Junior Lab

Grades: K-2nd| Day: Friday| Date: January 14th - March 11th| Price: \$245|

The class serves as an introduction into the world of photography, explaining its nature, origin and use to young children. It is designed to develop confidence in handling photography equipment and improve hand-eye coordination by holding and operating different cameras, while learning to compose and capture images. It also stimulates creativity through a variety of fun guided hands-on photography projects.

Students learn about the world, discussing concepts such as colors, shapes and emotions through photographs and are introduced to various skills and techniques such as making artist books or collages.

Roblox Game Design & Coding **NEW!**

With Makerstate

Grades: 2nd-5th| Day: Wednesday| Date: January 12th - March 9th| Price: \$295|

Roblox Game Design & Coding (Grades 2-5): Do you love to play and build in Roblox? Get ready to create obstacle courses, racing and role-playing games, space exploration missions, pirate voyages, and city skylines of a sustainable future all through 3D design and games. Let's go!

Skills Development: Roblox Engineering, 3D Design, Story Crafting, Creative Arts.

VEX Virtual Robotics & Game Coding

With Makerstate

Grades: 3rd-5th| Day: Tuesday| Date: January 11th - March 15th| Price: \$295|

Let's design and build our own VEX virtual robots with sensors and bot brains to solve mazes, navigate obstacle courses, draw creative patterns, and electromagnet coin-collecting games in this fun introduction to robotics, computer programming, artificial intelligence, and creative problem solving. Build bots. Learn lots!

Skills Development: Robotics, Hands-On Engineering, Coding, Creative Arts.

Writopia Lab

With Writopia Lab

Grades: 3rd-5th| Day: Wednesday| Date: January 12th - March 9th| Price: \$295|

Please Note: Due to computer shortages at Nest+m all students in the Wednesday in-person class are required to bring their own laptops. Computers will not be provided.

This course is open to new and returning students. For two-thirds of the semester, writers develop and write their own original short stories and/or plays and poetry on a weekly basis with a published writer or produced playwright. Writers will explore core elements of plot, key literary tools, and mechanics of a coherent story. During the remaining portion of the semester, writers will focus on essay writing. Writers will learn to analyze evidence, craft arguments, and structure and organize their ideas effectively. The workshop culminates in a reading for family, faculty, and friends. Each child leaves the workshop with a finished writing piece in hand and with a new found love of writing in his or her heart.

Writopia Lab runs the most fun and productive writing workshops for teens and tweens in New York City. Each year, Writopia teens win more writing awards than any other group of students in the country. While the focus of writing workshops is on story and creative expression, we will explore structure and grammar as we revise our work, and our writers ultimately organize their thoughts into coherent, fluid, and complete narratives. Workshops are run by published authors or produced playwrights trained in Writopia's method.

Writopia's method is student-centered; at Writopia, we witness every day that teens and tweens write at their best ability when writing what they want to write. Sessions are peppered within structive games and helpful exercises.

Young Architects

With Kids In Design

Grades: 2nd-5th| Day: Tuesday| Date: January 11th - March 15th| Price: \$295|

The class teaches the fundamental concepts in architecture, engineering, and urban planning. Young Architects build, design, and present their own projects in every class. The open-ended approach connects architecture and urban planning to other disciplines and introduces children to such different subjects as math, geometry, physics, structural engineering, design, climate, history, as well as a variety of cultural and social issues.

This class fosters the ability to recognize complex patterns and creatively solve challenging real-world problems.

Online Virtual Programs

App Inventor

With Launch

Online Session

Grades: 3rd-5th| Day: Wednesday| Date: January 12th - March 9th| Price: \$280|

In this class, kids create their very own phone apps for use on mobile and tablet devices! With a user-friendly “drag-and-drop” interface similar to Scratch, this app building course enables kids to learn how to design a GUI (graphical user interface), where to place buttons and text, and how to strategically use multiple screens.

A personalized soundboard, a choose your own adventure game, and our version of Whack-a-Mole are just a few of the apps that can be made (and played) in this exciting tech course!

Previous experience coding with Scratch or similar is highly recommended. Students must have a computer in order to code (not a tablet). It is highly recommended but not required that students use one computer to code and another device (tablet, computer) to participate in the Zoom class at the same time. Apps can be played on a computer, tablet, or phone.

Note: Some of this material will overlap with what they did in Phone Apps in Fall 2021. A few of the same projects, but they should be able to take them further since they have more experience. Students will use a free online platform (no download required).

Environmental Science **NEW!**

With Launch

Online Session

Grades: 2nd-5th| Day: Friday| Date: January 14th - March 11th| Price: \$280|

There are a lot of cool planets out there but only one we call home – Earth – and we want to keep it healthy!

So, join us as we investigate the human impact on our environment and how science is shaping the possibilities for a better planet! From analyzing the ice-albedo feedback and how it affects polar bears in the north pole, to engineering a windmill that maximizes energy output, this class is sure to reduce your boredom, reuse your imagination, and recycle the fun over and over!

Concerned about materials? Most items are commonly found in the home or can be purchased nearby. A short materials list will be provided!

Graphic + Digital Design **NEW!**

With Launch

Online Session

Grades: 3rd-5th| Day: Tuesday| Date: January 11th - March 15th| Price: \$280|

Please Note: Students will use a free online platform (no download required).

Whether it's the logo on a shoe or the cover of the latest comic book – designs are all around us! Photo manipulation, color theory, image layering, typography...

This course teaches various strategies and techniques that unleash the creative juices in every student. Become a designer by combining art and tech to create your own company business card, make silly movie posters and memes, and mockup packaging for your dream product! Welcome to the world of graphic and digital design!

Experience navigating a computer and using a mouse or trackpad is required. Students must have a computer or Chromebook in order to participate (not a tablet). It is highly recommended but not required that students use one computer to design on and another device (tablet, computer) to participate in the Zoom class at the same time.

Mad Science Presents: Junior Explorers

With Mad Science

Online Session

Grades: K-2nd| Day: Monday| Date: January 10th - March 14th| Price: \$280| Time: 4pm-4:45pm|

Please note the course fee is inclusive of a monthly supply fee. Supplies will be mailed monthly to participants. Parents would have to source some simple materials (*paper, pencil, tape, paper clips,*)

Come and spark imaginative learning with some Mad chemistry. Watch as we combine elements and make them fizz, crackle and change color! We'll delve into molecules and chemical reactions that produce light, gas and even slime.

Some of the weekly topics in this session include: Lab Works, Junior Reactors, p.H. Phactor, Slime Time, The Glow Show, Icky Sticky Stuff, Chemistry Corner, The Mystery of Chem and Kitchen Chemistry.

After3 Lower School Winter 2022 Courses

Python Interactive

With Launch

Online Session

Grades: 3-5th| Day: Monday| Date: January 10th - March 14th| Price: \$280|

Bring your Python code to life with interactive buttons, windows, images, and more! Our all new Python projects for Winter 2022 focus on Graphical User Interfaces, popularly referred to as GUI (pronounced goo-ee) via the Tkinter module. Through this virtual course learn how to create your own characters with bitmap editors, design the game interface with your choice of shapes, colors, and fonts, then code your objects to interact and respond to their environment. Did your alien just collide with a spider? That can't be good! Or can it? Your code, your rules. Explore Python for the first time or use your previous Python experience to truly bring your games to the next level.

Previous experience coding with Scratch or similar is highly recommended.

Web Design: HTML, CSS, JavaScript

With Launch

Online Session

Grades: 2nd-5th| Day: Thursday| Date: January 13th - March 10th| Price: \$270|

Building websites is a skill that's in high demand! Join us as we learn the fundamentals of creating web pages using HTML, CSS, and JavaScript programming languages. HTML provides the static content, CSS addresses formatting, and JavaScript makes it all dynamic!

Our student web designers immerse themselves in coding as they build a personal website centered on the content of their choice, design their own virtual trading cards, create interactive mad lib webpages, and More!

Previous experience coding with Scratch or similar is highly recommended. Please Note: Students will use a free online platform (no download required).

Writopia - Online

With Writopia Lab

Online Session

Grades: 2nd-5th| Day: Thursday| Date: January 13th - March 10th| Price: \$285|

Writopia Lab is a national non-profit organization that runs fun and highly productive creative writing workshops for kids and teens. The online workshop will enroll a maximum of ten students and will be led by a published, award-winning writer and assistant teacher trained in Writopia's workshop method. Students will be encouraged to complete at least one well-developed, polished piece over the course of the workshop.

Writopia Lab is a national community of young writers, ages 8-18. Founded in New York City in 2007, Writopia Lab has now spread to Greater New York, Greater Washington, and Los Angeles. Visit us at writopialab.org

After3 Lower School Winter 2022 Courses

Registration Information and Policies

Admission

The program is open to all NEST+m students and their siblings not attending NEST+m. Children who are not currently NEST+m students or alumni may be granted admission with an instructor recommendation, if space is available.

Semesters and Hours

The program is divided into three semesters, Fall: which runs from September through December, **Winter: which runs from January through mid March**, and Spring: which runs from late March through June. Please check our calendar for specific dates. Program hours are from 2:50pm-5:45 pm. Most specialized classes run from 3:15pm-4:45pm, unless otherwise stated. Supervised care is available before specialized/regularly scheduled classes at no additional fee. Supervised care available after specialized/regularly scheduled classes at an additional cost. Please see our Daily Schedule for more detailed information. The latest pickup time is 5:45 and is subject to a late fee.

Registration/Payments

Most classes are on a first come, first served basis and are only open to accounts in good standing with all programs administered by After3. There is a \$35 registration/ administrative fee applied to course fees. This is a one-time fee for each student, per semester. We accept most major credit cards and echecks. Checks are subject to a \$35 return fee. ****Please note receipts will display course names as listed in the brochure and Online registration system. We make no claims/guarantees that our programs are reimbursable, so please check with your employer to make sure that our programs qualify under their guidelines. ****

Refunds

Refunds may be granted before the close of Online registration (Please note a \$25 processing fee may apply). **No refunds/credits after the close of online registration.** Registration fee is non-refundable. Refunds will not be issued for school closings and rapid dismissals. In the event that a teacher is absent, After3 will make every attempt to provide a substitute or provide supervised care, but no refunds will be issued.

Transfers

Parents can request a transfer within the first two weeks of the program, within the same semester if space is available in the requested course. No refunds will be issued if the new class requested is less expensive than the original class, but a credit may be given for future use to be evaluated on a case-by-case basis. If the new class is greater than the original class the difference will be charged. Transfers after the first two weeks will be reviewed on a case by case basis.

Transportation

NOTE: After3 will not be offering busing for the Winter Semester. After 3 bus service is open to all students enrolled in afterschool. We service the Upper East side, Upper West Side, Tribeca/Battery Park and Brooklyn. Routes are based on students enrolled on a particular day. The bus service is a set fee per month, per day of week. Please note that due to recent increases from the bus company we've had to update our terms of bus service; The bus will now be for the entire semester, per day of the week, use. Please see our transportation page at After3nyc.org for more details. No freeze allowed. Please do not call the bus service directly for billing, payments, or routes as that is provided by After3.

Financial Aid

NOTE: Unfortunately due to financial constraints, financial aid will not be available for the Winter Semester. A limited amount of financial aid is available to students who currently qualify. Please note that financial aid eligibility is determined and issued solely by After3.

In order for your child to enjoy a safe and educational Afterschool experience, please make sure to review all of our policies at After3NYC.org. All policies are subject to reviews/updates throughout the semester.

DISCLAIMER: Our programs are not sponsored or endorsed by the Department of Education or the City of New York.
