SHSAT Test Prep Course

WHAT IS THE SHSAT?
The Specialized High Schools Admissions Test (SHSAT) is the only criterion for admissions to 8 of the 9 New York City Specialized High Schools. These highly selective public high schools include Brooklyn Technical High School, Brooklyn Latin, Stuyvesant High School among others. The exam is free to take. Though the exam is administered in the Fall of 8th grade, students usually begin to prep for in 7th grade as it is difficult and competitive.

SHSAT COURSE
Bee Tutored @ After3 is offering a spring/fall SHSAT test prep course at Nest+M. The course is 19.5 hours of total instruction divided into 13 classes that are 1.5 hours in length. 3 full length mock exams and all course materials are included. The class will maintain a 15:1 student to teacher ratio to ensure students receive individual attention. The spring semester will begin in late April and end in June; the fall semester will begin in September and lead up to the exam in October. Students will have access to our Online resource database that includes question banks and past exams. Weekly classwork and homework assignments will be posted on our website. Mock exam results and analytics will be returned within 1 week of testing date.

TUITION: $425 (Approximately $32 per class)

ADDITIONAL SUPPORT
We aim to identify students that need additional support early. Support options include discounted private tutoring, SHSAT boot-camps during breaks and holidays and extra work recommended by our teachers.

HOW DOES THIS COMPARE TO OTHER PREP OPTIONS?
Bee Tutored offers public schools and nonprofits an exclusive discount for group and private SHSAT test prep. Over the years, we have found that partnering with schools to offer on site test prep classes is simply the most affordable way to offer our highly successful proprietary SHSAT programming.
SHSAT EXPERTISE
Bee Tutored has prepared students for the SHSAT exam since 2008. Whether it’s preparing students at our various SHSAT courses at our Park Slope and Upper West Side classrooms, privately tutoring students at home across the city or at one of our many programs at partner schools, our students gain skills necessary to succeed on the exam. Our exceptional acceptance rates to Specialized High Schools and continued partnerships with some of the best schools in the city speaks to the success of our programs. Our partners include Nest+M, The Computer School, The School at Columbia, Battery Park City School (IS276), Transfiguration School, Brooklyn Heights Montessori, Grand Street Settlement, Oliver Scholars Program, I Have a Dream Foundation, Grand Street Settlement, PASSNYC and more.

Our proprietary SHSAT test prep curriculum and SHSAT test prep materials are rigorously researched and tested to help students achieve their highest scores. Our curriculum is designed to demonstrate that the test is predictable and manageable given the right attitude, practice and strategic thinking. We also believe that establishing a personal relationship and gaining a student’s trust at the start of a course is paramount to successful tutoring. Bee Tutored instructors are experts at mitigating test anxiety for both the students and parents as they know the test inside and out and have had great results in achieving target scores. As most of our instructors are Specialized High School alumni, they are able to use their inspiring personal experiences to get students excited about the high school admissions process!

ABOUT US
Bee Tutored is a boutique tutoring company that was founded in 2008. Our core principles include transparency, fostering close relationships with clients and adapting our teaching methods to best serve our students. Our curriculum includes a unique combination of strategy, time management, elimination techniques/answer traps, practice with new topics and how to reduce test anxiety. Our tutors are some of the best educators with proven track records that seek to impart test taking skills students can use throughout their academic career. Bee Tutored has partnerships with some of NYC’s top schools and non-profits and is always excited to help new students. For more info, visit our website or give us a call!
